CHURCH ASSESSMENT PLATFORM

*Know where your church stands.  
Plan where it's going.*

The Church Assessment Platform is a 91-question, evidence-based health assessment designed specifically for AME Zion congregations. It measures satisfaction, energy, and health across every dimension of ministry — giving pastors and leadership teams the clear, actionable data they need to strengthen ministry, grow membership, and fulfill God's calling.

# The Consulting Process

From survey to strategy — a structured 5-step engagement

1

## Initial Consultation

We meet with your leadership team to understand your church's context, goals, and readiness. No obligation. We answer every question and configure the assessment for your specific church.

2

## Custom Deployment

Your unique assessment link is deployed for members and leaders — mobile-friendly, secure, and accessible to all ages. Available with plain, bias-aware language. Paper copies available on request.

3

## Data Collection & Monitoring

Responses flow automatically into a real-time analytics dashboard. We track completion rates and guide your congregation through the process to maximize participation and data quality.

4

## Analysis, Reports & Summary

Our consultants prepare a comprehensive written summary with category scores, demographic breakdowns, written response analysis, and strategic insights — all in an executive consulting edition.

5

## Leadership Presentation

We present findings to your pastor and leadership team in a structured 40-minute session, translating every data point into a clear path forward with specific action recommendations and ownership assignments.
